Welcome Message:

It is our great pleasure to welcome you to the 14th International Congress of the Society for Ethnopharmacology, India and the 26th International Congress of the International Society for Ethnopharmacology (ISE) (ISE-SFEC-2027), to be held from 27–29 November 2027 at Kolkata, India, on the theme:

"Translating Traditional Therapies – Explore, Educate and Empower."

ISE-SFEC-2027 provides a global platform to expand scientific and industrial partnerships, showcase innovations, and advance ethnopharmacology, natural products, and evidence-based traditional medicine. On the 15th anniversary of the Society for Ethnopharmacology, we warmly invite researchers, practitioners, industry leaders, policymakers, and other stakeholders to join this landmark gathering and contribute to shaping the future of the field.

About the Conference

The Society for Ethnopharmacology (SFE-India) has completed 15 years and commemorates the 12th ISE Congress, held in 2012 at Jadavpur University. Inspired by the vision of the late A. P. J. Abdul Kalam, former President of India, the Society seeks to bridge traditional knowledge with modern clinical and translational science. ISE-SFEC-2027, being organised in Kolkata, brings together stakeholders and eminent organisations from across the globe under the theme "Translating Traditional Therapies – Explore, Educate and Empower." The Congress advances the paradigm of "Globalizing Local Knowledge and Localizing Global Technology" by integrating biological, chemical, ecological, computational, engineering, and social sciences with traditional and Indigenous knowledge systems. It aims to promote sustainable healthcare, biodiversity conservation, equitable bioeconomy development, and culturally grounded innovation. The official language of the conference is English.

Core Scientific and Translational Focus of ISE-SFEC-2027:

The Congress aims to foster a vibrant platform for interdisciplinary collaboration across drug discovery, phytochemistry, pharmacognosy, pharmacology, ethnobotany, and toxicology.

This multidisciplinary international event provides a unique collaborative platform for students, researchers, healthcare professionals, industry experts, and other stakeholders from around the globe. The conference will bring together over 500 experts from more than 40 countries worldwide in the fields of ethnopharmacology, natural products, pharmaceutical sciences, biotechnology, traditional medicine, AI, regulatory science, sustainability, and drug discovery.

Society for Ethnopharmacology, India (SFE-India):

The Society for Ethnopharmacology, India (SFE-India) is a registered society constituted by eminent academicians, researchers, industrialists, and other stakeholders. Inspired by the vision of the respected former President of India, Dr. A. P. J. Abdul Kalam, Society for Ethnopharmacology, India (SFE-India) was founded in 2012 under the leadership of Pulkar Kumar Mukherjee to scientifically strengthen traditional medicine through research, ethical governance, collaboration, and policy engagement. The main motto of the society is to promote traditional medicine and the dissemination of knowledge on Natural Health Products through the main vision:

**"Globalising local knowledge
Localising global technologies"**

SFE-India promotes discussion and research on key areas of natural product research, particularly the Indian traditional knowledge system with special emphasis on Indian Traditional medicine. Through national and international conferences, workshops, policy dialogues, and capacity-building initiatives, SFE-India has worked tirelessly to promote ethnopharmacological research. It facilitates the integration of modern global knowledge into traditional remedies, quality assurance, trade, commerce, and herbal drug development, enabling the upgradation of local and traditional expertise through regular seminars, workshops, conferences, etc. For further details, please visit the website: www.ethnopharmacology.com

Centre for Evaluation of Traditional Medicine (TradMed-CoE), Jadavpur University:

The Centre for Evaluation of Traditional Medicine (TradMed-CoE), Jadavpur University, is an interdisciplinary research platform dedicated to the scientific validation, safety evaluation, and translational development of traditional medicine systems, including Ayurveda. Within its broader vision, ISE-SFEC-2027 represents a major international outreach initiative of TradMed-CoE, extending its translational research philosophy to a global platform. The Congress will amplify dialogue on safety science, metabolomics-guided validation, AI-driven ethnopharmacology, biodiversity governance, and sustainable bioeconomy models. For further details, please visit the website: www.jadavpuruniversity.in

International Society for Ethnopharmacology (ISE):

The International Society for Ethnopharmacology (ISE) is the premier global organisation advancing ethnopharmacology through rigorous, evidence-based, interdisciplinary research integrating pharmacology, botany, chemistry, anthropology, toxicology, clinical sciences, and sustainability. ISE promotes ethical research, Indigenous knowledge preservation, biodiversity conservation, and international collaboration through congresses, publications, travel grants, scholarships, and awards. ISE-SFEC-2027 marks the third ISE International Congress in India, following the landmark 2012 Congress in Kolkata, which inspired the formation of the Society for Ethnopharmacology (SFE-India). The event reaffirms India's growing leadership in translational ethnopharmacology, phytopharmaceutical innovation, AI-enabled natural product research, and sustainable bioeconomy development.

Dates for Registration and Abstract Submission:

Registration & Abstract Submission Start	January 15, 2027
Last date of abstract submission	May 01, 2027
Information about acceptance of abstract	June 01, 2027
Registration of accepted abstracts	July 01, 2027
Early Bird Registration Ends	July 31, 2027

Registration:

Participation and oral/poster presentation slots are limited and will be allocated on a first-come, first-served basis. Abstracts may be submitted by May 1, 2027, without prior registration. Authors of accepted abstracts must complete registration by July 1, 2027, for inclusion in the conference proceedings. Unregistered abstracts will not be published. Registration fees are non-refundable; website: www.sfeise2027.com

Registration fees for Delegates: ISE-SFEC 2027

Registration Fees*	Early bird before July 31, 2027	Late registration after July 31, 2027
ISE/SFE member	Euro 300	Euro 400
Non-member	Euro 400	Euro 500
ISE/SFE member, student**	Euro 200	Euro 250
Non-member, student**	Euro 250	Euro 300
Accompanying person***	Euro 150	Euro 150

***18% GST will be applicable additionally on the registration fee for all categories as per government rules.**

Registration fees include Access to scientific sessions, Conference materials, Refreshments, conference lunches and dinners

****Students:** Please send a copy of your student ID or an equivalent document signed by your official supervisor/HOD to the organising secretariat.

*****Accompanying person:** Registration fee includes Refreshments, Conference lunches and dinners but does not include Access to the Scientific Session and Conference materials.

Guidelines for abstract submission:

Abstracts relevant to the thematic areas of the Congress must be submitted through the official Congress website (www.sfeise2027.com) on or before May 01, 2027. Abstracts must present original, unpublished work and be written in English. Each abstract should include the title, author(s) and their affiliations, background, objectives, materials and methods, results, and conclusions. The name of the presenting author must be clearly indicated separately. The abstract must not exceed 250 words. All accepted abstracts will be published in the Congress Proceedings.
